**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5,24,36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshimura (2001/0016542).

Yoshimura (2001/0016542) discloses a treadmill/stepper type exercise device having first and second treadles 81-82 each having an endless belt and each pivotally attached to the frame. Yoshimura (2001/0016542) discloses several embodiments having interconnection means. Figures 5(a-c) show spring resistors 84 which are operatively coupled with the interconnection means 83-84 as shown in figures 5(a-c), the interconnection means having two rocker assemblies.

As to claim 3, note the rocker arms 84 of Figure 5(b) each having pivot axes.

***Allowable Subject Matter***

3. Claims 6,19,20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
